Youth Civic Leaders Panel: Students will hear from peers and organizations across the country dedicated to the field of youth civic action and engagement.

Current Issue Deliberation: Students will develop a deeper understanding of their chosen issue area and discuss different policies and solutions that have been proposed to address it.

Action Planning: By school group, students will develop a shared vision and strategies to take action back in their local communities.

Planning for Community Engagement and Leadership by School: Students will build on their experiences in the Summit to develop vision statements and strategies to make a difference in their own communities.
